

Docket No.: 229752000701
(PATENT)

IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

In re Design Application of:
Paul Z. ZIMMET

Application No.: 10/067,832

Confirmation No.: 3004

Filed: June 3, 2002

Art Unit: N/A

For: A NOVEL GENE AND USES THEREFOR

Examiner: Not Yet Assigned

PETITION TO ACCEPT REPLACEMENT DRAWING

MS AMENDMENT

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Dear Sir:

Applicants hereby petition to replace sheets two and three [Fig. 1A(i) and Fig. 1A(ii), respectively] of the drawings originally filed with the application with the attached sheet containing new Fig. 1A(i) in order to correctly disclose the entire DNA human beacon sequence encoding the human beacon amino acid sequence, as well as the DNA complement to the same.

Specifically, when Fig. 1A(i) and Fig 1A(ii) were originally filed, only half of the correct sequence was disclosed ("second half"). Furthermore, the Sequence Listing as filed only disclosed half of the two DNA sequences and one amino acid sequence correctly ("first half").

Newly submitted Fig 1A(i) discloses the correct amino acid and DNA sequences mirrored by newly submitted SEQ ID NOS 1-3 (filed in the amendment submitted concurrently herewith). That is to say, the correct portion of the sequences from the originally filed Fig. 1A(i) and Fig. 1A(ii) were spliced together to create new Fig 1A(i).

No new matter has been entered.

Dated: October 12, 2004

Respectfully submitted,

By 

Wayne C. Jaeschke, Jr.
